PROJECT

Vendor Management System with Performance Metrics

- **Description:**

  Developed a robust Vendor Management System using Django and Django REST Framework, featuring comprehensive vendor profile management, purchase order tracking, and dynamic performance metric calculations. Implemented key metrics including On-Time Delivery Rate, Quality Rating Average, Average Response Time, and Fulfillment Rate to evaluate vendor performance effectively. Ensured seamless CRUD operations for vendors and purchase orders via RESTful APIs. Enabled detailed performance analytics for strategic vendor assessment and optimization. Enhanced system integrity through authentication and authorization mechanisms..
